

Solar Walkway FRP Moded Grating

Solar Walkway FRP

Article No. F-WK-FRP

Product properties

Material	Fiberglass Roving, Resin, Calcium Powder
Colour	Black,White,Red, Green,Yellow, Blue,Grey or Customized
Technique	Molded
Feature	Aging-Resistant, Insulation, Corrosion Resistance
Application	Walkway/platform/industry

Specification

Full Size	3.66*1.22m , 4.0*1.22m, 4.0*1.0m
Height	25, 30, 38, 40, 50, 65mm
Mesh Size	20*20, 38*38, 40*40, 50*50mm

Reinforced FRP Grid

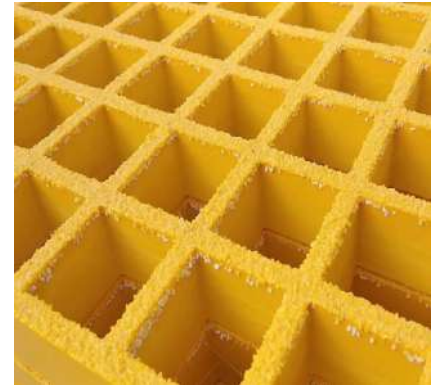

Surface Type

Concave Surface

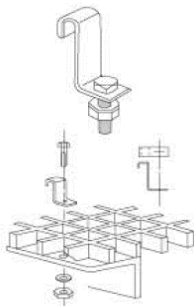

Flat Surface

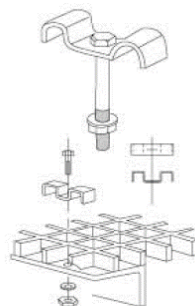

Gritted Surface

Accessories

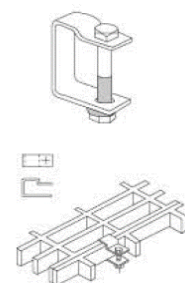

Type L

This lighter duty clip should be specified to hold one load bar to the support for lighter duty loads. It is available for FRP molded and pultruded gratings

Type M

M clips or saddle clips clamp 2 FRP grating load bars to the support. This provides excellent holding capability and because of this, are recommended for stair treads and most FRP molded and pultruded gratings

Type C

C clips were specifically designed to tie two panels of gratings together to minimize differential deflections when their joints fall between supports.
