MAXIMA SOLAR | COM-I COMMERCIAL POWER KIT

11KW system with 48V system

High-Capacity. Three-Phase. Uncompromised Reliability.

Accelerate your business sustainability and eliminate operational downtime. The Maxima Solar COM-I System is a heavy-duty, industrial-grade energy solution engineered to drive high-demand, three-phase commercial machinery completely independent of rising grid costs.

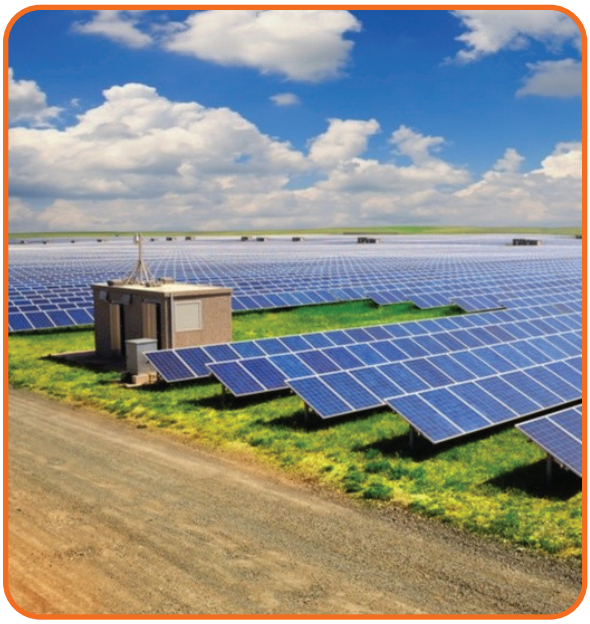

Strategic Advantages for Business

Three-Phase Industrial Power: Purpose-built to seamlessly operate high-torque, heavy-duty commercial machinery and complex electrical infrastructures.

Massive Solar Harvesting: Utilizes a high-density, 16-panel array designed to maximize roof space and optimize kilowatt generation per square meter.

Grid Stability Integration: Features built-in voltage stabilization to protect sensitive corporate assets and electronic equipment from fluctuations.

High-Capacity Storage Bank: Equipped with a massive 12-battery deep-cycle matrix to ensure seamless business continuity through extended off-peak hours.

Optimized Commercial Applications

Engineered for: Large-scale agricultural water pumping networks, commercial refrigeration units, centralized HVAC cooling infrastructure, manufacturing facilities, and corporate office backup matrices.

Bur Dubai Office:
Showroom # 19, SUQ Al Kabeer Building,
Bur Dubai, Dubai, UAE

Deira Office:
Showroom # 5 & 6, 7 States Building
Baniyas Square, Deira, Dubai, UAE
